La Quinta Village
Complete Streets
Project

ABOUT THE PROJECT

The City of La Quinta will invest over \$13.5 million from various funding sources to construct five new roundabouts in the La Quinta Village where pedestrian, bicycle, golf cart, and automobile traffic exists. The reduced travel lanes and crosswalks added midblock will provide pedestrians with safer access to Civic Center Park, Old Town La Quinta, and the Benjamin Franklin Elementary School. Improvements will be completed in three stages throughout The Village and Cove areas - construction is underway!
